

Project Initialization and Planning Phase

Date	02 October 2026
Team ID	SWTID-2026-1309
Project Name	Pocket Smart AI
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

I am	I'm trying to	But	Because	Which makes me feel
Applicant seeking a loan	Secure a loan for property	Married with no co-applicant income	Self-employed with a good credit history	Optimistic about loan approval

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A budget-conscious user	Manage my spending and get suitable recommendations	I find it difficult to track expenses and decide what to buy within my budget	My spending needs and preferences are not organized in one place	Confident about my spending decisions
